

## This Month's News

### Little Bunnies:

The Little Bunnies want to extend a warm welcome to Ben T. who will be joining us this month! Each Little Bunny has some exciting news to share. Ashlynn is pulling herself up to a standing position when you hold her hands. Trevor is almost to the point of sitting on his own. Sean is beginning to babble and coo and Trinity is learning to “army crawl.” Look for more beginnings in next month’s newsletter.

Love, Tammy

### Parrots:

The Parrot’s are looking forward to the arrival of a new friend Saige, she is ten months old. Everyday Natalie and Bella like to watch Cruz, Dash, Karsten and Ben with great interest. They always want to play with the “big boys”. We are also looking forward to stroller rides outdoors. We still feed the squirrels and the birds and the little ones love to watch the animals outside their windows.

Love, Jeri

### Lil’ Roo’s:

First off I would like to express how much I am enjoying teaching the Lil’ Roo’s this past first month. Everyone has been very helpful during my first month here at Koala-T-Kare and I want to thank everyone for the support. As for what we will be studying this month, we will start with talking about the rainy weather. We will be making rain sticks, creating a weather chart, and if lucky, some kool-aid raindrop art. The next two weeks in April will be spent discussing spring! We will plant little bean and grass seeds and talk about the fundamentals of plant growth. Hopefully our studies will bring some more spring like weather. Earth Day, on April 22<sup>nd</sup> will be studied in the fourth week of April. We will talk about recycling and other helpful things for our environment. It is sure to be a busy month!

Love, Laura

### \*\*\*Parent Reminder\*\*\*

If any parent would like to schedule a one on one conference with their child’s teacher to discuss developments just let us know. We would love to discuss all the wonderful things your child does and teaches us everyday!
